CLEAR UP A CRISIS

Louis Cabrera Denies Authorship of Statement Criticizing the United States.

SOURCE OF FRICTION REMOVED

Repudiation of Mexican News Bureau Article Closes Incident and Peace Conference Will Continue.

New York, Oct. 30.—Luis Cabrera, president of the Mexican commission now participating in the joint conference over border difficulties, said here today that he did not authorize the statement issued by the Mexican News Bureau in Washington Saturday assailing American officials for alleged laxity in dealing with anti-Carranza propagandists along the border. "The statement purporting to be from me was not issued by me or given out with my knowledge or consent," Mr. Cabrera said. "All statements issued, or which may issue, will appear signed by me."

Regardless of what his personal attitude may be, the Mexican commissioner said he would not, in view of his official position, issue a statement of the character of that of the news bureau while negotiations were pending between the two governments. He declared that the bureau would be instructed not to give out further statements as coming from him unless they bore his signature.

Removes Source of Friction.

Washington, Oct. 30.—What promised to be a new source of serious friction between the United States and the de facto government of Mexico apparently was cleared away to-night through formal repudiation by Eliseo Arredondo, Mexican ambassador designate, of a statement issued here yesterday under the name of Luis Cabrera, assailing the American government for permitting aid to reach Villa and other bandits from its side of the border.

Mr. Arredondo will go to the State Department tomorrow with the explanation that the statement was put out by an employee of the Mexican News Bureau, the de facto government's semi-official publicity agency, without the knowledge or consent of either the embassy or Mr. Cabrera. Department officials said tonight this would be accepted and would be regarded as closing the incident.

To Deny Other Quotations.

While at the department, Mr. Arredondo says, on special instructions from his government, he will deny also the authenticity of alleged quotations from General Carranza, General Obregon, the Mexican war minister, and Gen. Pablo Gonzalez, commander of the forces in Mexico City, reflecting strong anti-American sentiments, which are expected to appear tomorrow in an American weekly magazine.

HELD PRISONER 10 MONTHS

Woman Inmate of Ohio Infirmary Was Almost Sightless and Near Starvation When Rescued.

Youngstown, O., Oct. 30.—After being confined in the basement of an infirmary here for ten months, her eyesight practically gone, her body emaciated, her mind almost wrecked, and dressed in male clothing, Miss Marie Higgins, aged 27, escaped yesterday and told her story. The young woman had not seen daylight since December 28, she said. Joe Serak, an inmate of the infirmary, is under arrest following her revelations.

Miss Higgins went to the infirmary last December because of illness and in a short time disappeared and it was supposed she had escaped. Nothing had been heard from her since.

She said she groped about her small prison and finding a door ajar she slowly made her way to one of the corridors, where she was discovered. She later told her story to Sheriff J. C. Umstead and County Detective John Kane. Serak, after being arrested, is said to have told the officers that the woman had been in the basement since December but he declared she remained there of her own accord.
